Bespoke Service: Our range of stands is designed to cover most variations in laptop size, weight and opening angle, and because Standivarius manufacture these stands in-house, we can also adapt them to suit specific laptop models and applications if required.

A small charge is made to cover this service including design work, the manufacture of one prototype and one pre-production model. The minimum order quantity for bespoke stands is 30 units. (see price list for current charges)

Application: Laptop up to 17" with standard opening angle

Select: oryx evo D
